

## Santa Cruz Island

### Santa Cruz Island

Channel Islands National Park

Via Ventura Harbor

Boat trip with: Island Packers (805)642-1393

**DURATION/DISTANCE:** multiple options to day hike or camp

### ABOUT THIS HIKE (for more info, see “Event Calendar” at [www.OCHBC.org](http://www.OCHBC.org))

Santa Cruz Island is located about 20 miles from the mainland coast, and travel time from Ventura Harbor on one of Island Packers swift catamarans is only one hour to east Santa Cruz Island Scorpion Anchorage, or one hour and twenty minutes to Mid Santa Cruz Island Prisoners Harbor.

Being the largest Channel Island, Santa Cruz is also the most diverse with interesting geological features including two mountain ranges, many canyons and a rugged shoreline. At least 600 plant species, well over 120 species of land birds including the endemic Island scrub jay, and a vast expanse of wilderness area exist for the curious to explore by land or sea. There are multiple options for hiking/visiting.

Hiking here is like going back in time. There are no cars, hotels, restaurants or homes. The island looks much as it must have to European explorers in the 1500s -- pristine, with towering cliffs and lush rolling hills.
